

WATER RATES (for the months of November thru June)

The water portion of a water and sewer bill is comprised of three columns with blue font. It is calculated using a sliding rate determined by the amount of water used, then adding a portion of the pumping fee charged by the West Harris County Regional Water Authority (WHCRWA) and a regulatory assessment charged by the Texas Commission on Environmental Quality (TCEQ). Each of these charges will show up as a different line on your water bill.

Type of service	Water Rates established by MUD #186	WHCRWA Pumping fee*	TECQ regulatory assessment
